## LT10OH Suspended－Double Asymmetric Indirect

## FEATURES

－Designed with the installer in mind for a fast \＆cost effective install．
－A substantial gear tray provides excellent thermal management ensuring long component life and high lumen maintenance．
－Choice of screwed or screwless endcaps．
－High efficacy up to $125 \mathrm{Lm} / \mathrm{W}$ ．
－Plug \＆play joining of long runs over 5 m ．
－Tridonic LED boards \＆drivers（3K \＆4K as standard）with $2.7 \mathrm{~K}, 5 \mathrm{~K}$ ， 6．5K，Tuneable White $27-65 \mathrm{~K}$ options \＆Sunlike full spectrum．
－Colour consistency 3 MacAdams．
－L90＠50，000hrs B10 \＆CRI 90 as standard．
－Certified IES files．
－Designed \＆manufactured locally．
－Where possible components are sourced locally．
－The 6060 grade aluminium used in the production of these profiles is smelted and extruded in New Zealand．
The CO2 emmitted per Kg of aluminium produced is one of the lowest in the world．
－The indirect component uses a Tridonic asymmetric distribution linear lens for focused upward illumination．
－Direct／indirect commonly switched has a 67／33 lumen split as standard a with 50／50 lumen split for individually switched．

## DIFFUSERS

Asymmetric

－95\％Transmission
－Single Asymmetric
－Suitable For Wall Up Light
－Can Be Used Stand Alone

## DISTRIBUTIロN

## CINTRロL－DIM－EMERGENCY

## CロLロபRS

Powder Coat Colours
－Dulux Protexture White（20T1274F）
－Dulux Protexture Black（20T9215F）
－Dulux Protexture Silver Pearl（Light Grey）（21T7852F）
－Custom colours to order

# LUMATECH 

## Linear Lighting Solutions

| Lumen output for other boards multiply lumens by |  | $\begin{gathered} \text { CRI90 } 3000 \mathrm{~K} \\ 0.96 \end{gathered}$ |  |  |  |  | $\begin{gathered} \text { CRI80 4000K } \\ 1.18 \\ \hline \end{gathered}$ |  |  |  |  | $\begin{gathered} \text { CRI80 3000K } \\ 1.13 \\ \hline \end{gathered}$ |  |  |  |
| IES Files are standard for 1m．Specific length IES files are available on request．Example 4.7 m ． |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

## JIINS \＆CIRNERS

Profile corners and joins are welded providing a seamless transitions and no light leakage．
Custom angled joins on request．
Joins can be horizontal or vertical

## LENGTH CALCULATIロN

Luminaires are constructed by using combinations of geartray sizes starting at 565 mm and up to 1685 mm moving up in 70 mm increments．
This will give a fully illuminated diffuser from end to end and joins in the profile will be positioned by Lumatech to keep uniform lengths． High output and certain other specialist boards are only available in 280 mm increments，please check with us if length is crucial．
If a specific length is required in between LED board increments available，these are achieved using blanking plates．
Endcap assemblies require a total of 15 mm allowance，for recessed luminaires this becomes the cut－out dimension

## ACCESSロRIES \＆ロPTIロNS

Italian 3 m \＆ 5 m sispensions with tool－less height adjustment．
Screwed endcaps for budget applications．
Screwless endcaps for a seamless look．
Round or square ceiling roses．
Rod suspensions．
